Job Summary

Vacancy :
Deadline : Jan 01, 1970
Published : May 16, 2025
Employment Status : Full Time
Experience : Below 1 Year
Salary :
Gender : Any
Career Level : Any
Qualification :

Apply Before: 20-05-2025

Position: ASP.NET Developer
Location: Dange Chowk, Thergaon, Pune,
Employment Type: Full Time
CTC: As per company norms.
Position Overview:
The ideal candidate will have a solid foundation in C# and .NET Core development, with a focus on building and
maintaining web applications using .NET Core Web API, Entity Framework Core, and SQL Server/MySQL.
Knowledge of front-end technologies like HTML, and CSS, and a basic understanding of Angular or React would
be an added advantage.

Qualifications:
• Education: Bachelor's degree in computer science, Information Technology, or a related field.
• CTC Range: As per company norms.
Required Skills:
• Proficiency in C#, .NET Core, and .NET Core Web API.
• Experience with Entity Framework Core.
• Strong Knowledge of SQL Server or MySQL.
• Basic front-end skills with HTML and CSS.
• Understanding of Object-Oriented Programming (OOP).

Roles and Responsibilities
• Developing, maintain, and enhancing web applications using ASP.NET Core, .NET Core Web API, and Entity Framework Core.
• Implement Object-Oriented Programming (OOP) principles to create modular and maintainable code.
• Experience with front-end technologies such as HTML5, CSS3, JavaScript, and jQuery.
• Collaborate with cross-functional teams to define, design, and ship new features.
• Write clean, scalable, and efficient code while following best coding practices.
• Debug and resolve software defects and issues.
• Proficiency in developing RESTful APIs using .NET Core Web API.
• Work with databases, including SQL Server or MySQL, to manage data and ensure data integrity.
• Participate in code reviews and provide constructive feedback to peers.
• Assist in maintaining technical documentation for all development work.
• Good communication skills and ability to work collaboratively within a team environment.
• Stay updated with the latest industry trends and emerging technologies in .NET development.

Nice to Have:
• Experience with Azure or AWS cloud services.
• Familiarity with front-end frameworks like Angular or React.js.
• Experience with version control systems like Git.
• Understanding of Agile development methodologies.
