## Job Description

---

### Apply Before: 30-06-2025

**Position:** Full Stack Developer Intern

**Location:** Pune (On-site)

**Duration:** 6 months

**Stipend:** INR 5,000 per month

PPO based on performance and CTC can be discussed

#### **Role Overview:**

We are looking for a Full Stack Developer Intern who is passionate about web technologies and eager to work across both front-end and back-end development. This internship will provide hands-on experience in building scalable web applications using modern technologies like PHP or Node.js for the backend, and React.js or Next.js for the frontend.

#### **Key Responsibilities:**

- Assist in designing and developing full-stack web applications.
- Write clean, maintainable code using PHP or Node.js on the backend.
- Build responsive and interactive UI using React.js or Next.js.
- Integrate front-end components with back-end services and APIs.
- Participate in code reviews, testing, and debugging to ensure quality deliverables.
- Collaborate with designers, developers, and other team members in an agile environment.

#### **Required Skills:**

- Knowledge of PHP or Node.js for backend development.
- Experience with React.js or Next.js for frontend development.
- Familiarity with HTML, CSS, JavaScript, and responsive design principles.
- Understanding of RESTful APIs and asynchronous request handling.
- Basic knowledge of Git and version control workflows.
- Bonus: Experience with databases like MySQL or MongoDB.

#### **Who Can Apply:**

- Students pursuing a degree in Computer Science, Engineering, or related fields.
- Candidates with strong problem-solving skills and a willingness to learn new technologies.
- Previous project or internship experience (even personal projects) is a plus.

#### **Perks:**

- Work on real-time projects with mentorship from senior developers.
- Certificate of internship and performance feedback.
- Flexible working hours.
- Potential for full-time offer based on performance.
